Seller is not bound by this Agreement if either this Agreement has been entered into by ROK Person as Buyer or any third party acting as Buyer has entered into this Agreement or has purchased IPT Tokens on behalf of ROK Person. Seller may take all necessary and appropriate actions as it deems necessary and in its sole discretion to invalidate this Agreement. Any ROK Person who makes Payments, uses IPT Smart Contract and/or purchases IPT Tokens or enters into this Agreement on unlawful, unauthorized or fraudulent basis shall be solely liable for, and indemnifies, defends and holds Seller and Seller's Parties harmless from any Damages that may arise from or is a result of such ROK Person's unlawful, unauthorized or fraudulent making of Payments, use of IPT Smart Contract and/or purchase of IPT Tokens. Any ROK Person who makes Payments, uses IPT Smart Contract and/or purchases IPT Tokens or enters into this Agreement on unlawful, unauthorized or fraudulent basis understands, acknowledges and accepts that it may lose and Seller has the right to retain any and all money and/or other funds, including virtual currency or cryptocurrency, paid for IPT Tokens as a penalty for violation of Terms of Use and misrepresentation hereunder.

4.6 Distribution of IPT Tokens to Seller's Parties.

(a) Buyer understands and consents to participation of Seller's Parties in allocation, distribution and purchase of IPT Tokens, including people who may work on development and implementation of the Crypt-ON Platform or who may work for Seller's future businesses which Seller may start or enter into with a portion of the proceeds from IPT Token distribution and sale.

(b) Buyer understands and consents that the maximum amount of 160 000 000 of IPT Tokens will be distributed to Buyers and 20 000 000 will be left to Crypt-ON team, advisors, consultants and/or bounty program participants as may be defined by Seller at its sole discretion.

**ARTICLE V.
NO OTHER RIGHTS**

5.1 No Loan or Ownership Interest.

(a) The purchase of IPT Tokens by Buyers does not in any way constitute a loan to Seller and is not a bond as may be defined by any national legislation or Governmental Authority;

(b) The purchase of IPT Tokens by Buyers does not provide them with a stock or any other ownership or management rights or any other interest in Seller.

5.2 No Investment or Corporate Rights.

IPT Tokens are not an investment instrument as it may be defined by any national legislation. By purchasing IPT Tokens Buyer does not acquire any rights for dividends or other income from the Seller or its business activity; as well as any rights to manage, instruct or otherwise influence Seller's business and commercial activity. IPT Tokens provide Buyers with the only right to use services provided by Crypt-ON Platform and have no other purpose or value. All other ways of using IPT Tokens including resale, exchange, pledge do not correspond with the purpose of IPT Tokens.

5.3 Intellectual Property Rights.

IPT Tokens do not provide and Seller retains all rights, title and interest in all of its intellectual property in relation to Crypt-ON Platform, including inventions, ideas, concepts, code, discoveries, processes, marks, methods, software, compositions, formulae, techniques, information and data, whether or not patentable, copyrightable or protectable in trademark, and any trademarks, copyright or patents based thereon. Buyer may not use any of Seller's intellectual property for any reason without Seller's prior written consent.

**ARTICLE VI.
SECURITY AND DATA**

6.1 Security.

Buyer will implement any and all necessary and appropriate measures designed to secure access to: (i) any device associated with Buyer and utilized in connection with Buyer's purchase of IPT Tokens; (ii) private keys to Buyer's wallet or any other Buyer's private account used for IPT Token storage; and (iii) any other username, passwords or other login or identifying credentials in any way connected with IPT Tokens. Seller is under no obligation to reimburse or in any other way compensate any IPT Tokens to which Buyer has lost access. Buyer understands and accepts that in the event that Buyer is no longer in possession of Buyer's device or any private keys associated with Buyer and utilized in connection with Buyer's purchase of IPT Tokens, Buyer may lose all of Buyer's IPT Tokens. Buyer also acknowledges, understands and agrees that all purchases of IPT Tokens are non-refundable.

6.2 Additional Information.

Upon Seller's first request, Buyer shall immediately provide Seller with any and all information and documents that Seller in its sole discretion deems necessary or appropriate to comply

with any national laws, regulations of Governmental Authorities, rules or agreements, including those related to any judicial process. Buyer consents to disclose to Seller any such information and documents in order to comply with any applicable national laws, regulations of Governmental Authorities, rules or agreements. Buyer acknowledges and agrees that Seller may refuse to distribute IPT Tokens to Buyer or to utilize IPT Tokens through Crypt-ON Platform until such requested additional information is provided by Buyer.

6.3 Personal Data; Privacy.

Seller gathers, processes, uses, discloses, and manages information including personal data obtained from the Buyer in relation to Website use, Crypt-ON Platform use, IPT Tokens purchase and IPT Smart Contract use in compliance with Privacy Policy which is incorporated here by reference.

**ARTICLE VII.
NO REPRESENTATION OR WARRANTY**

7.1 No Seller's Representation or Warranty.

NEITHER SELLER NOR ANY OF SELLER'S PARTIES, AND HEREBY DISCLAIMS, MAKE ANY REPRESENTATION OR WARRANTY OF ANY KIND (EXPRESS, IMPLIED OR STATUTORY) WITH RESPECT TO IPT TOKENS, IPT TOKENS ALLOCATION AND DISTRIBUTION, IPT SMART CONTRACT OR CRYPT-ON PLATFORM. SELLER DOES NOT MAKE, AND HEREBY DISCLAIMS, ANY REPRESENTATION OF WARRANTY, EXPRESS OR IMPLIED, INCLUDING ANY RELATING TO THE FUTURE OR HISTORICAL FINANCIAL CONDITION, RESULTS OF OPERATIONS, RESULTS OF CRYPT-ON PLATFORM LAUNCH AND FUTURE OPERATION, AS WELL AS ANY WARRANTIES OF TITLE OR IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR ABSENCE OF ANY DEFECTS WITH RESPECT TO IPT SMART CONTRACT OR IPT TOKENS OR THEIR UTILITY, OR THE ABILITY OF ANYONE TO MAKE PAYMENTS, USE IPT SMART CONTRACT AND PURCHASE IPT TOKENS. WITHOUT LIMITING THE FOREGOING, NEITHER SELLER NOR ANY OF SELLER'S PARTIES REPRESENT OR WARRANT THAT THE PROCESS OF PURCHASING IPT TOKENS OR RECEIVING IPT TOKENS WILL BE UNINTERRUPTED OR ERROR-FREE OR THAT IPT TOKENS ARE RELIABLE AND ERROR-FREE. BUYER ACKNOWLEDGES AND UNDERSTANDS THAT BUYER MAY NEVER RECEIVE IPT TOKENS AND MAY LOSE ANY AND ALL MONEY AND/OR OTHER FUNDS, INCLUDING VIRTUAL CURRENCY OR CRYPTOCURRENCY, PAID FOR IPT TOKENS.

7.2 Buyer's Own Knowledge and Risk.

Buyer's decision to purchase IPT Tokens and enter into this Agreement shall be made based on Buyer's own knowledge and information disclosed herein and in Whitepaper. Additionally, Buyer has conducted to its own satisfaction an independent investigation and verification of Crypt-ON Platform, IPT Smart Contract and IPT Tokens and shall therefore rely solely on its own examination. Buyer acknowledges, understands and agrees that Buyer is making Payments and purchasing IPT Tokens at its sole risk. Without prejudice to the generality of the foregoing, Buyer accepts purchased

IPT Tokens on an “AS IS” and “AS AVAILABLE” basis, irrespectively of the technical specifications, parameters, performance or function thereof, and with no representations, warranties, promises or guarantees of any kind made by Seller.

7.3 No Guarantee to Launch Crypt-ON Platform.

Buyer acknowledges, understands and agrees that Buyer should not expect and there is no guarantee or representation or warranty by Seller that:

- (a) Crypt-ON Platform will ever be launched and/or adopted;
- (b) Crypt-ON Platform if launched and adopted will be adopted as developed by Seller and not in a different or modified form;
- (c) Crypt-ON Platform if launched and adopted will be reliable and error-free.

ARTICLE VIII. RISKS

8.1 Risks Acknowledgement.

BUYER HAS CAREFULLY REVIEWED, ACKNOWLEDGES, UNDERSTANDS AND ASSUMES THE FOLLOWING RISKS, AS WELL AS ALL AND ANY OTHER RISKS ASSOCIATED WITH CRYPT-ON PLATFORM AND IPT TOKENS (INCLUDING THOSE NOT MENTIONED AND DISCUSSED HEREIN), ALL OF WHICH COULD RENDER IPT TOKENS LOST, WORTHLESS OR OF LITTLE OR NO VALUE. BUYER ACKNOWLEDGES AND ACCEPTS THAT BUYER MAY LOSE ANY AND ALL MONEY AND/OR OTHER FUNDS, INCLUDING VIRTUAL CURRENCY OR CRYPTOCURRENCY, PAID FOR IPT TOKENS.

8.2 Insufficient Information Availability.

Seller is not in a position, nor obliged, to keep Buyers closely posted on every detail of Crypt-ON Platform development (including its progress and expected milestones whether rescheduled or not) and therefore will not necessarily provide the Buyers with timely and full access to all the information relating to Crypt-ON Platform that may emerge from time to time. The insufficiency of information disclosure is inevitable and reasonable. Buyer acknowledges, understands and accepts that it may not have full information on the process of Crypt-ON Platform development.

8.3 Uncertain Regulatory and Legal Framework.

Regulatory and legal status of crypto-tokens, digital assets and blockchain technology is unclear or unsettled in many jurisdictions. It is difficult to predict how or whether Governmental Authorities will regulate such technologies in future. It is likewise difficult to predict how or whether any Governmental Authority may make changes to existing laws, regulations and/or rules that will affect crypto-tokens, digital assets, blockchain technology and their applications. Such changes could negatively impact IPT Tokens as crypto-tokens in various ways. As a result, Seller may development of Crypt-ON Platform, distribution of IPT Tokens, or its operations in a jurisdiction if there is a risk of recognition of such activity as unlawful or commercially undesirable. Buyer acknowledges, understands and accepts the risk related to uncertain regulatory and legal framework.

8.4 Regulatory Measures.

IPT Tokens as crypto-tokens are or may be overseen by Governmental Authorities. Seller may receive queries, notices, warnings, requests or rulings from Governmental Authorities from time to time, or may even be ordered to suspend or discontinue any action in connection with Crypt-ON Platform or IPT Tokens distribution. As a result, the development, marketing, promotion of Crypt-ON Platform may be seriously affected, hindered or terminated. IPT Tokens in turn could be defined from time to time as virtual commodity, digital asset or even securities or currency by Governmental Authorities in various jurisdictions and therefore could be prohibited from being traded or held pursuant to local regulatory requirements. As a result, Buyer may lose all IPT Tokens purchased hereunder, as well as any and all money and/or other funds, including virtual currency or cryptocurrency, paid for IPT Tokens. Buyer acknowledges, understands and accepts the risk related to regulatory measures.

8.5 Ability to Transact or Resell.

IPT Tokens are distributed for their use on Crypt-ON Platform. Buyer may be unable to sell or otherwise transact IPT Tokens at any time, or for the price Buyer paid. By making Payments and purchasing IPT Tokens, Buyer acknowledges, understands and agrees that IPT Tokens may have no value; there is no guarantee or representation of liquidity for IPT Tokens; and Seller's Parties are not and shall not be responsible or liable for the market value of IPT Tokens, the transferability and/or liquidity of IPT Tokens and/or the availability of any market for IPT Tokens through third parties or otherwise. Buyer acknowledges, understands and accepts the risk related to inability to transact or resell IPT Tokens.

8.6 Exchange and Counterparty Risks.

If Buyer makes Payments from an exchange or an account that Buyer does not control, IPT Tokens will be allocated to the account from which the Payment was made; therefore, Buyer may never receive or be able to recover the purchased IPT Tokens. If Buyer chooses to maintain or hold IPT Tokens through a cryptocurrency exchange or other third party, Buyer's IPT Tokens may be not received, stolen or lost. Buyer acknowledges and agrees that if Buyer makes Payments and/or purchases IPT Tokens through an account that Buyer does not control and/or holds IPT Tokens on a cryptocurrency exchange or with another third party, Buyer does so at its own and sole risk.

8.7 Liquidity.

IPT Token is not a currency issued by any individual, entity, central bank or national, supra-national or quasi-national organization, nor it is backed by any hard assets or other credit. Circulation of IPT Tokens on the market is not what Seller is responsible for or pursues. Trading of IPT Tokens merely depends on the consensus on its value between the relevant market participants. Nobody guarantees the liquidity of IPT Tokens to any extent at any time. Buyer acknowledges, understands and accepts the liquidity risk.

8.8 Token Security.

IPT Tokens may be subject to expropriation and/or theft. Hackers or other malicious groups or organizations may attempt to interfere with IPT Smart Contract or IPT Tokens in a variety of ways,

including malware attacks, denial of service attacks, consensus-based attacks, Sybil attacks, smurfing and spoofing. There is a risk that IPT Smart Contract as based on Ethereum blockchain may contain intentional or unintentional bugs or weaknesses which may negatively affect IPT Tokens or result in partial or complete loss of Buyer's IPT Tokens, loss of Buyer's ability to access or control Buyer's IPT Tokens and/or loss of ETH in Buyer's account and/or wallet. In the event of such a software bug or weakness there may be no remedy so IPT Tokens holders are not guaranteed any remedy, refund or compensation. Buyer acknowledges, understands and accepts the risk related to token security.

8.9 Private Keys.

IPT Tokens purchased by Buyer may be held by Buyer in Buyer's digital wallet or vault, which requires a private key, or a combination of private keys, for access. Loss of requisite private key(s) associated with Buyer's digital wallet or vault storing IPT Tokens will result in loss of access to Buyer's IPT Token balance and/or loss of such IPT Tokens. Any third party that gains access to such private key(s), including by gaining access to login credentials of a hosted wallet or vault service Buyer uses, may be able to misappropriate Buyer's IPT Tokens. Seller is not responsible for any such losses. Buyer acknowledges, understands and accepts the risk related to the loss of private keys.

8.10 Failure to Map a Public Key to Buyer's Account.

Failure of Buyer to map a public key to Buyer's account or wallet may result in third parties being unable to recognize Buyer's IPT Token balance on Ethereum blockchain when and if they configure the initial balances of a new blockchain based upon Crypt-ON Platform of which Seller makes no representation or guarantee.

8.11 Reliance on Third-Parties.

If completed, Crypt-ON Platform will in whole or partly rely on third parties to adopt and implement it and to continue to develop, supply, and otherwise support it. There is no assurance or guarantee that those third parties will complete their work, properly carry out their obligations, or otherwise meet anyone's needs, all of which might have a material adverse effect on Crypt-ON Platform. Buyer acknowledges, understands and accepts the risk related to reliance on third parties.

8.12 Ethereum Blockchain.

Buyer is aware of the specifics of Ethereum blockchain technology and acknowledges, understands and accepts all risks related thereto.

(a) The Ethereum blockchain is prone to periodic congestion during which transactions can be delayed or lost. Timing of block production is determined by proof of work so block production can occur at random times. Individuals may also intentionally spam Ethereum blockchain in an attempt to gain an advantage in purchasing cryptographic tokens. Buyer acknowledges and understands that Ethereum block producers may not include Buyer's transaction when Buyer wants or Buyer's transaction may not be included at all.

(b) In case of hardfork or double spending (51% attack) in Ethereum blockchain, all or part of IPT Tokens and IPT Smart Contract may be lost or become unavailable to exploit. Seller may not be held liable for any Damages or any other losses caused by these events and does not guarantee the safety and stability of IPT Tokens or IPT Smart Contract.

8.13 Changes and Completion.

Crypt-ON Platform is still under development and may undergo significant changes over time. Although Seller intends Crypt-ON Platform to have the features and specifications set forth in the Whitepaper and herein, Seller may make changes to such features and specifications at its sole discretion for any number of reasons, and any party that adopts Crypt-ON Platform also may make changes, any of which may mean that Crypt-ON Platform does not meet Buyer's expectation. The development of Crypt-ON Platform may be abandoned at any time for a number of reasons, including lack of interest from the public, lack of funding, lack of commercial success or prospects, or departure of key personnel.

ARTICLE IX. TAXES

9.1 Applicable Taxes.

Each Buyer shall declare, bear, and pay any and all such taxes, duties, imposts, levies, tariffs, charges and surcharges that might be imposed by applicable national laws and Governmental Authorities' regulations of any jurisdiction as a result of or in connection with the receipt, holding, use, purchase, appreciation, trading or divestment of IPT Tokens (whether purchased hereunder or otherwise acquired). Buyer shall be solely liable for all such penalties, claims, fines, punishments, liabilities or otherwise arising from Buyer's non-payment, underpayment, undue payment or belated payment of any applicable tax, duty, impost, levy, tariff, charge or surcharge. Seller gives no advice and makes no representations as to the tax implication of any Buyer's purchase of IPT Tokens. IPT Tokens price does not include VAT or consumption or any other related tax

9.2 Tax Agency.

Buyer acknowledges, understands and agrees that Buyer may be considered, recognized or defined as tax agent in accordance with the laws of Buyer's tax residency.

ARTICLE X. NO LIABILITY. INDEMNIFICATION

10.1 No Liability.

This Agreement, IPT Smart Contract, Crypt-ON Platform or IPT Tokens shall not form basis for any claim against the Seller and/or Seller's Parties. To the fullest extent permitted by law, Buyer disclaims and waives any right or cause of action against Seller and Seller's Parties of any kind in any jurisdiction. Buyer agrees not to seek any refund, compensation or reimbursement from any Seller's Party, regardless of the reason, and regardless of whether the reason is identified in this Agreement. Seller hereby expressly disclaims its liability, and shall in no case be liable to any person, for:

(a) any person making Payments, using IPT Smart Contract and/or purchasing IPT Tokens in violation of any anti-money laundering, counter-terrorism financing or other regulatory requirements that are imposed in any jurisdiction and by any Governmental Authority;

(b) any person making Payments, using IPT Smart Contract and/or purchasing IPT Tokens in violation of any representation, warranty, obligation, covenants or other provision

hereunder, and the resulting failure or inability to retrieve his/her payment or to claim relevant purchased IPT Tokens;

- (d) failure, abortion, delay or rescheduling of Crypt-ON Platform development and resulting failure to meet any anticipated milestone;
- (e) any malfunction, breakdown, collapse, rollback or hardforking of the Ethereum blockchain;
- (f) failure of IPT Tokens to meet any specific purpose, or unfitness for any specific use;
- (g) utilisation of proceeds raised IPT Tokens distribution;
- (h) failure to timely and completely disclose any information relating to the development of Crypt-ON Platform;
- (i) any Buyer's divulgence, loss or destruction of the private key associated with Buyer's digital wallet or vault storing IPT Tokens;
- (j) trading or speculation of IPT Tokens by any person;
- (k) listing or delisting of IPT Tokens on or from any crypto-currency exchange;
- (l) IPT Tokens being classified or treated by Governmental Authority as a kind of currency, securities, commercial paper, negotiable instrument, investment or otherwise that may be banned, regulated or subject to certain legal restrictions;
- (m) any risk factors disclosed herein and any Damage that is caused by, associated with, in connection with, incidental to or consequential to that risk factor.

10.2 Release.

To the fullest extent permitted by applicable law, Buyer releases Seller and Seller's Parties from any and all responsibility, liability, claims, demands, and/or Damages based on, arising out of or relating to this Agreement, any possible disputes and controversies with Buyer and the acts or omissions of any third parties.

10.3 Damages Limits.

Notwithstanding Section 10.1 hereof, in no circumstances the aggregate joint liability of Seller and Seller's Parties, whether in contract, warrant, tort or other theory, for Damages to Buyer hereunder shall exceed the amount received by Seller from Buyer. Any Dispute shall be resolved

10.4 Indemnification.

To the fullest extent permitted by applicable law, Buyer indemnifies, holds harmless and reimburses Seller and Seller's Parties from and against any and all expenses or amounts paid

(including legal and arbitration fees and expenses of counsel), losses, claims, fines, liabilities, Damages, judgments based on, arising out of or relating to Payments, Buyer's use of Crypt-ON Platform and/or purchase of IPT Tokens hereunder. Seller reserves the right to exercise sole control over the defense, at Buyer's expense, of any claim subject to indemnification hereunder.

10.5 Force Majeure.

Buyer understands and agrees that Seller shall not be liable for any violation hereof in case of any force majeure event, including but not limited to industrial disturbances, electrical, telecommunications, hardware, software or other utility failures, software or smart contract bugs or weaknesses, Ethereum blockchain hardfork, double spending attack, Acts of God, Second Coming, earthquakes, storms, or other nature-related events, blockages, embargoes, riots, acts or orders of government, uprisings, revolutions, acts of terrorism or war, technological change, changes in interest rates or other monetary conditions, and, for the avoidance of doubt, changes to any blockchain-related protocol.

ARTICLE XI. APPLICABLE LAW AND DISPUTES RESOLUTION

There will be no class arbitration or arbitration in which an individual will attempt to resolve a dispute as a representative of another individual or group of individuals. Further, a dispute cannot be brought as a class or other type of representative action, whether within or outside of arbitration, or on behalf of any other individual or group of individuals.
